

Navigacija u okviru Web sajta

Navigacija u okviru Web sajta

- ❑ Posetioci se služe navigacijom da bi se kretali kroz informacioni prostor
- ❑ Navigacija na Webu – treba da pomogne korisnicima da shvate gde se nalaze, da odluče kuda da idu i da nauče kako da stignu na drugo mesto
- ❑ Pri navigaciji ljudi obično pitaju sledeće:
 - ❖ Gde se nalazim?
 - ❖ Kuda mogu da idem?
 - ❖ Kako da stignem tamo gde sam naumio?
- ❑ Oni mogu da postave i dodatna pitanja ukoliko se npr. izgube:
 - ❖ Da li sam ovde već bio?
 - ❖ Kako da stignem do mesta na kome sam već bio?
- ❑ Na Webu se na njih često ne može ni približno odgovoriti.

Navigacija u okviru Web sajta

10 principa dobre navigacije (Fleming 1998):

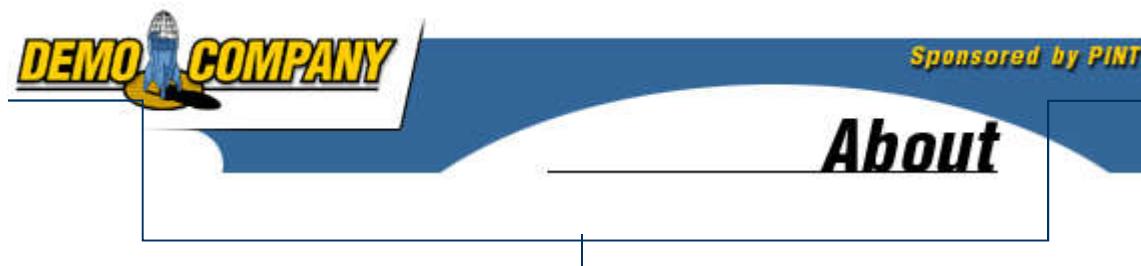

- ❖ Jednostavnost za korisnika
- ❖ Konzistentnost
- ❖ Mogućnost povratka
- ❖ Jasnost pozicije
- ❖ Alternativne mogućnosti
- ❖ Ekonomičan odnos aktivnosti i vremena
- ❖ Jasne vizuelne poruke
- ❖ Jasne i razumljive labele
- ❖ Navigacija mora da odgovara svrsi sajta
- ❖ Podrška ciljevima i ponašanju korisnika

Tačan položaj na Webu: URL adresa

- Lokacija na Web-u definiše se URL adresom (jedinstvenom oznakom lokacije resursa – engl. Universal Resource Locator)
- Primer URL - <http://www.democompany.com/products/trainer.htm>
- Korisnik možda neće razumeti, niti umeti da je iskoristi
- Na osnovu URL-a teško se mogu proceniti odnosi sa stranama, bilo unutar, bilo van Web lokacije
- Korisnici iz URL-ova prikupljaju podatke o fizičkoj lokaciji, imenu servera i možda o direktorijumu ili imenu dokumenta – ali ne i gde se nalaze
- Lakša navigacija – jednostavne URL koji se lako pamte

Oznake strana i lokacija

- Oznaka – obično na vrhu strane - gornji levi ugao – treba da bude naglašena i da se razlikuje od sistema za navigaciju ili sadržaja
- Pravilo: Širom lokacije razmestiti oznake - ime ili logotip, koje će korisnika, kada ih pritisne mišem vratiti na matičnu stranu.
- Pravilo: Na svim stranama lokacije oznaka mora dosledno da se primenjuje.

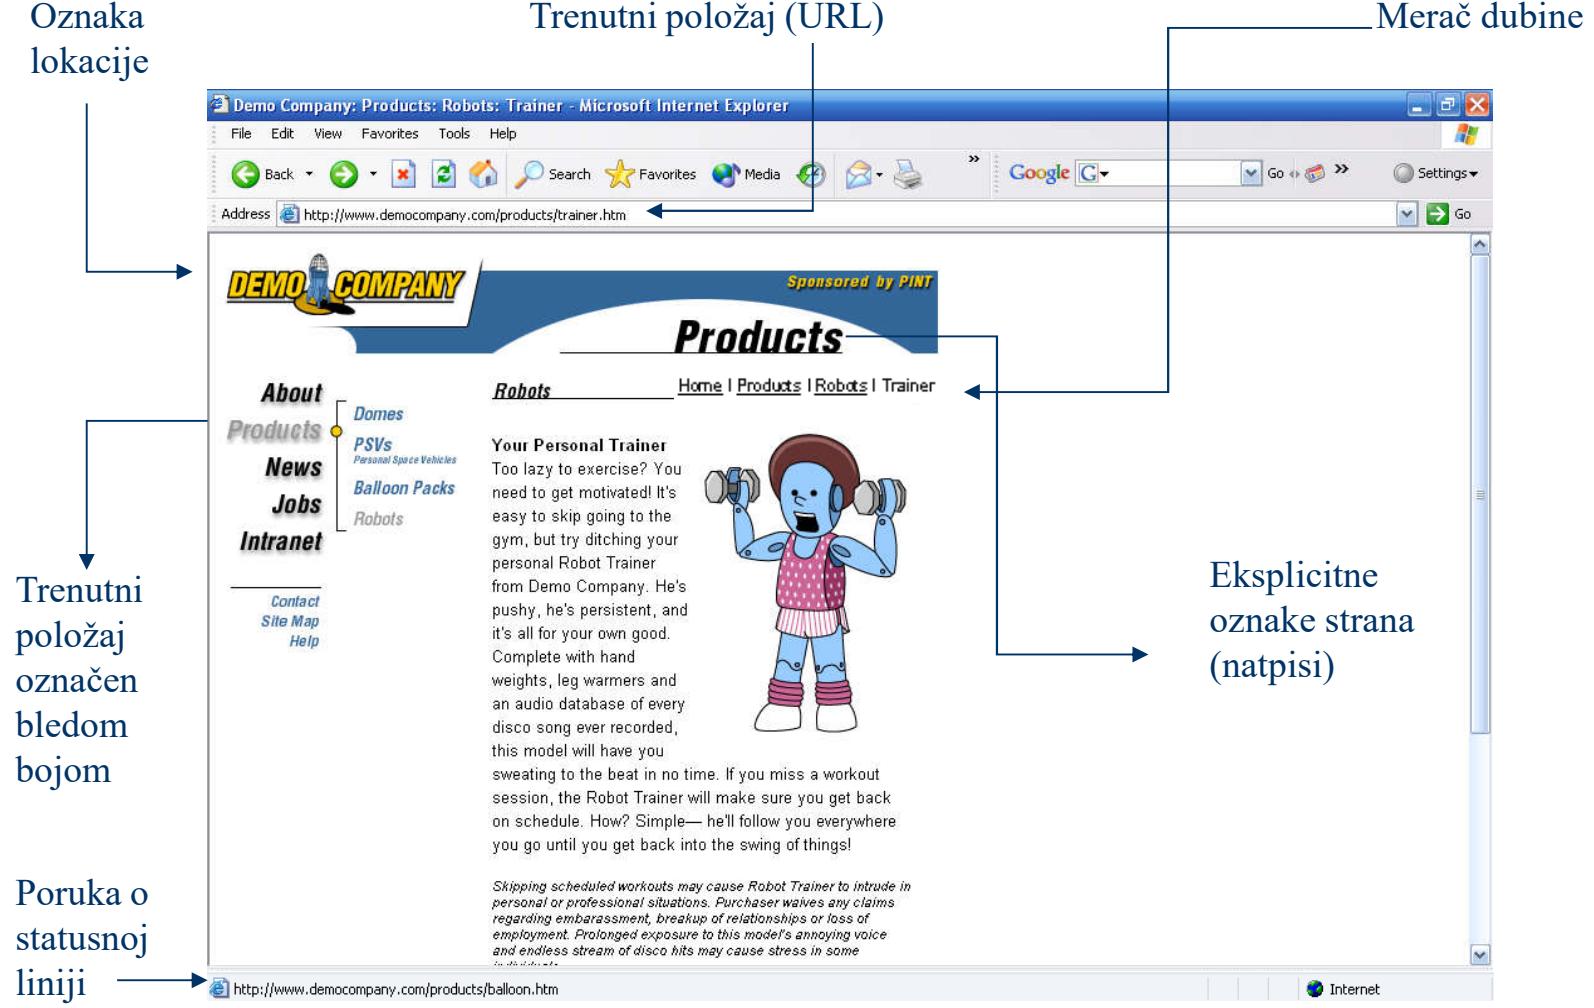

Tipično Web označavanje

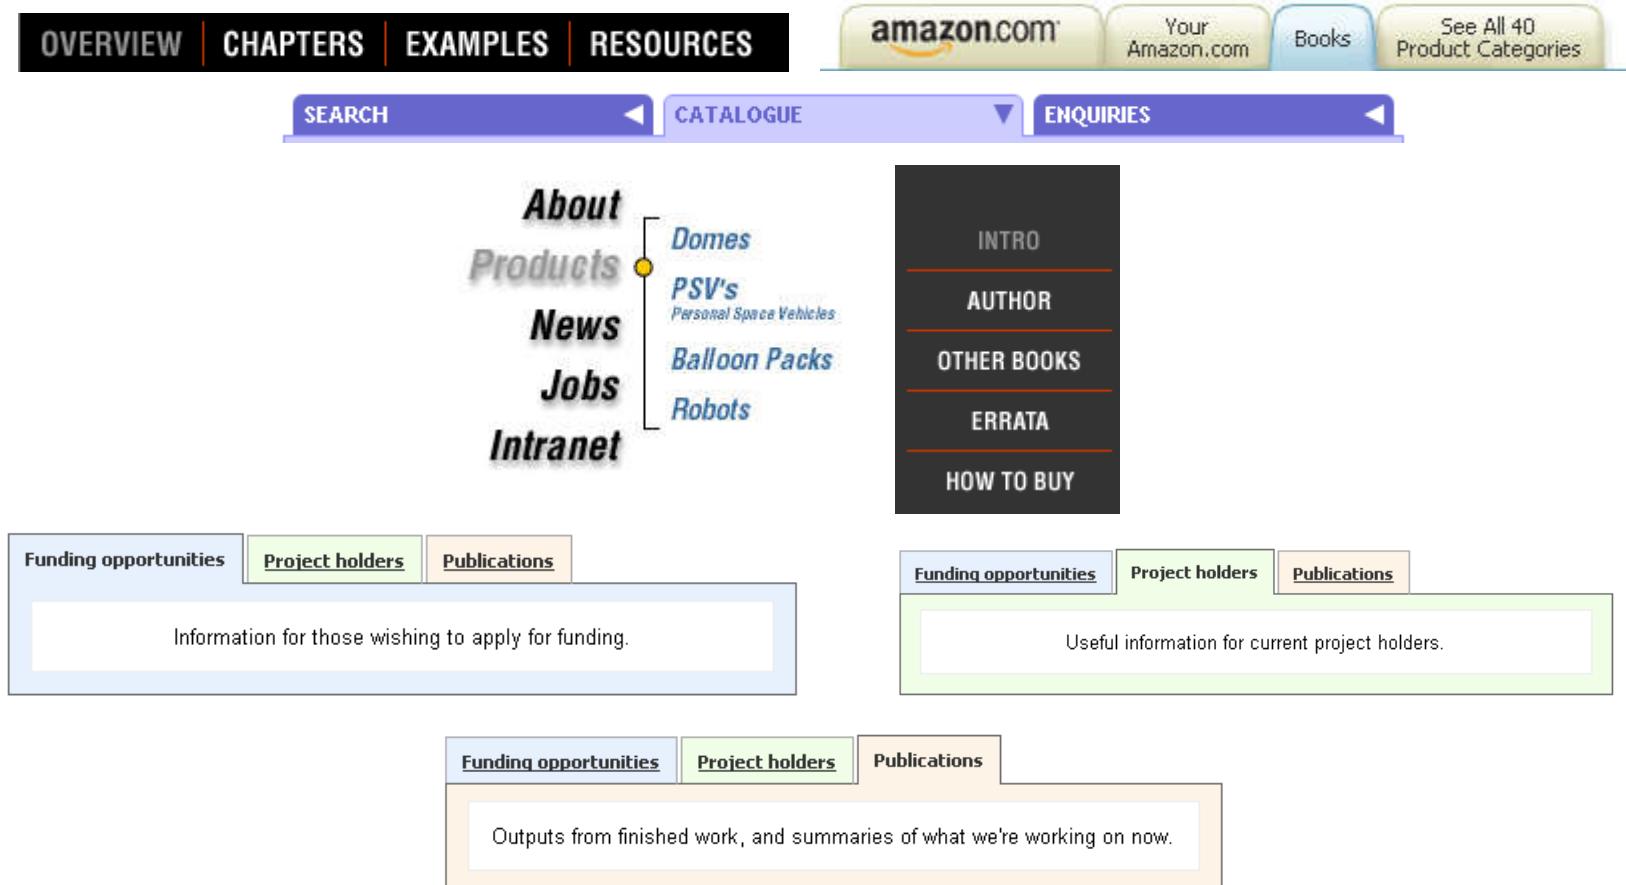

Označavanje prema pravilima grafičkog korisničkog interfejsa

Primer označavanja strane

Oznake strana i lokacija

- Dugme koje je trenutno pritisnuto – pozicija korisnika – drugačije stilizovano – isključeno iz izbora

Merač dubine

- Napredniji način označavanja strana daje više obaveštenja o lokaciji – merač dubine – pokazuje dubinu do koje je na lokaciji korisnik dospeo

EUROPA > EU Bookshop > Site map

You are in > OECD Bookshop > Bestsellers

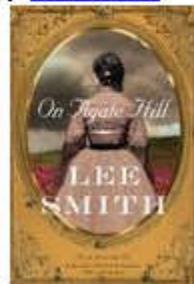

[Home](#) > [Subject](#) > [Category](#) > [This Page](#)

Posećene lokacije

- Za korisnike je važno da se promeni boja veze koju su koristili – da bi znali da li su već videli neku stranu ili vezu.
- Uobičajeno je da su neiskorišćene veze plave, a one korišćene ljubičaste.

Postavljanje sistema navigacije

□ Navigacioni elementi mogu biti postavljeni:

- ❖ Pri vrhu strane
- ❖ Pri dnu strane
- ❖ Uz levu/desnu ivicu strane
- ❖ U centru strane

Navigacioni elementi pri vrhu strane

- Odmah se pojavljuju
- Uobičajen način pregledanja sadržaja Web strane: odozgo na dole i s leva na desno
- Loša strana: prilikom pomeranja strane naniže, navigacioni elementi u njenom vrhu će nestati sa ekrana
- Rešenja su:
 - ❖ Fiksiranje navigacionih elemenata uz gornju ivicu ekrana
 - ◆ Pomoću okvira – što prouzrokuje probleme u pogledu upotrebljivosti
 - ◆ Pomoću DHTML-a napraviti paletu za navigaciju koja će plutati uz gornju ivicu ekrana
 - ❖ korišćenje veze “na početak”

Korišćenje veze “na početak”

- Veza ka vrhu koja korisnika vraća na početak strane – gde je smešten sistem za navigaciju
- Korisnik je već bio na početku ili je zapamtio da se navigaciona traka tamo nalazi

Navigacioni elementi pri vrhu strane

The screenshot shows a Microsoft Internet Explorer window with the following details:

Tekstualne veze pri dnu strane

- Tekstualne veze koje odgovaraju vezama pri njihovom vrhu
- Odvajaju se u glastim zagradama, uspravnim linijama ili tačkama
- Stil elemenata navigacije kojim se veze pri vrhu strane imitiraju vezama pri dnu – dizajn zaglavlja/podnožja

Done Internet

Navigacioni elementi uz levu ivicu strane

- Veoma često mesto postavljanja navigacionih elemenata – čitaoci počinju pregled informacija s leve strane
- Mana: elementi za navigaciju mogu da remete sadržaj ili da smanje prostor koji mu je na raspolaganju
- Izvesna prepreka koju korisnik mora da preskoči da bi došao do sadržaja – može da ga omete ali i da mu u pozitivnom smislu ukaže na granicu strane
- Margina uz levu ivicu koje inače ne bi bilo

Navigacioni elementi uz levu ivicu strane

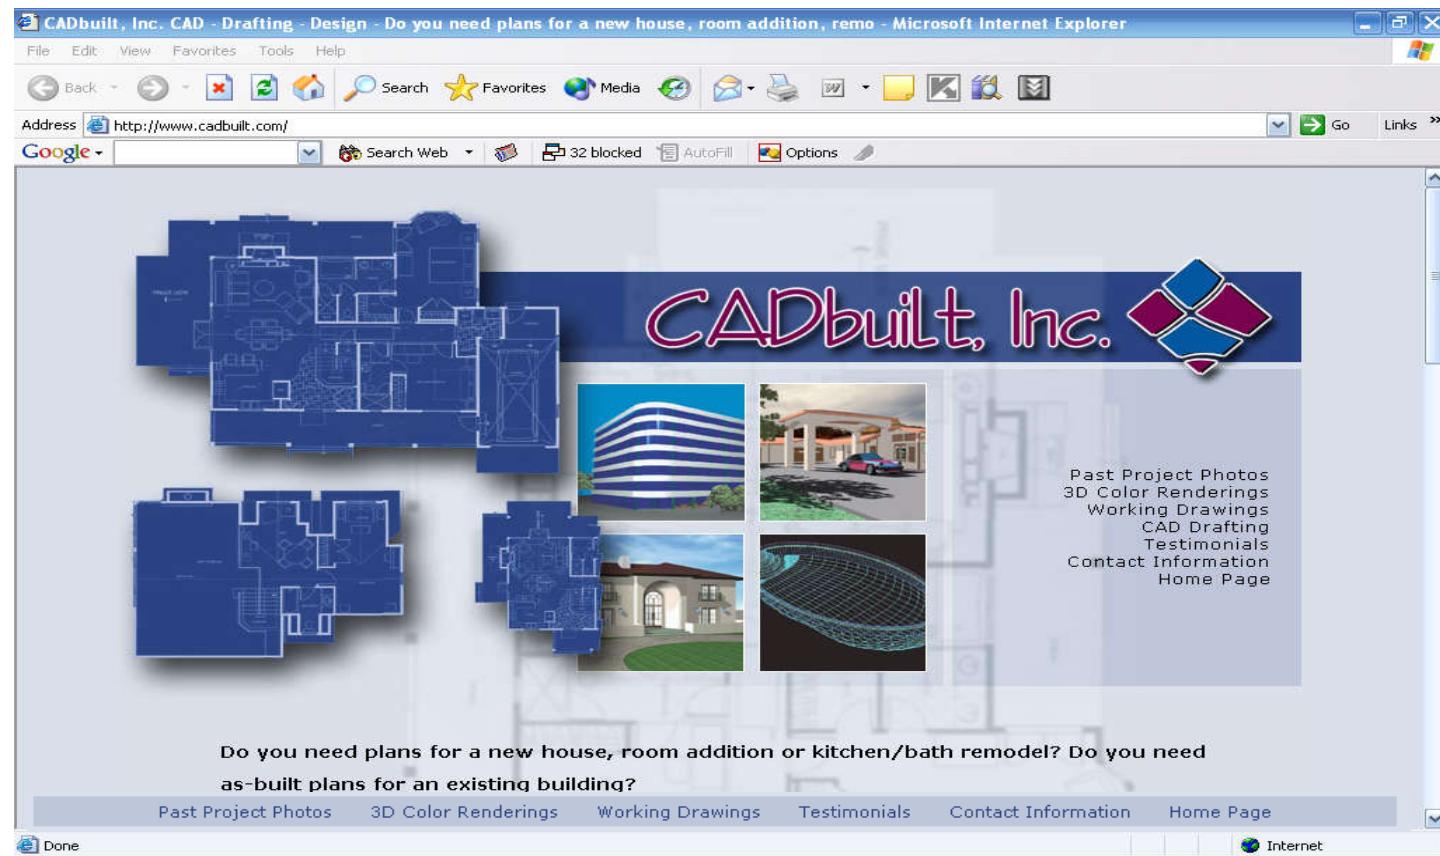

Navigacioni elementi uz desnu ivicu strane

- ❑ Sistem navigacije uz desnu ivicu strane – ne ometa sadržaj koji se može odmah čitati
- ❑ Dugmad za navigaciju nalaze se blizu trake za pomeranje sadržaja – korisnika poštovati suvišnog rada mišem
- ❑ Značajne mane:
 - ❖ Gde se tačno nalazi desna ivica?
 - ❖ U zavisnosti od korisnikovog monitora i veličine prozora čitača, širina korisnog prostora može znatno da varira
 - ❖ Povećava rastojanje između dugmadi navigacije i dugmeta Back
- ❑ Predlog: Izbegavati primarni sistem navigacije postavljen na desnu stranu.

Navigacioni elementi uz desnu ivicu strane

The screenshot shows a Microsoft Internet Explorer window displaying a website for 'hope liturgical works'. The title bar reads 'hope liturgical works : contemporary worship environment - Microsoft Internet Explorer'. The menu bar includes File, Edit, View, Favorites, Tools, and Help. The toolbar contains Back, Forward, Stop, Refresh, Home, Search, Favorites, Media, Mail, and other icons. The address bar shows 'http://www.hopelw.com/'. Below the toolbar is a Google search bar. The main content area features a dark background with white text. At the top left is the logo 'hope liturgical works' and 'CONTEMPORARY WORSHIP ENVIRONMENT'. A quote by Henri Matisse is displayed: "...to take a closed space of very limited proportions, and, by no other means than the play of colors and lines, give it infinite dimensions." Below the quote is a photograph of a wooden chalice or vessel on a stand. To the right of the main content area is a sidebar with the words 'design', 'build', and 'consult'. A vertical navigation menu on the right lists 'HOME', 'ABOUT', 'GALLERY', 'NEWS', 'CONTACT', 'REFERRALS', and 'COMMENTS'. At the bottom right of the page is a footer with copyright information: '©2005 Erling Hope / Hope Liturgical Works & Fenc Web Design.'

Navigacioni elementi uz desnu ivicu strane

Navigacioni elementi u centralnom području

- Elementi navigacije postavljaju se u centar prozora samo na matičnoj strani
- Glavna namena matične strane – pomoć korisniku pri odluci kuda da ide
- Rešenje čini matičnu stranu dovoljno drugačijom od drugih

Internet

Primarni tip
navigacije se
ponavlja pri dnu
strane

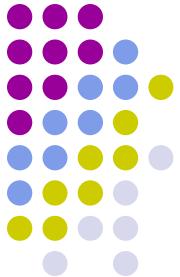

Vrste strana i njihova organizacija

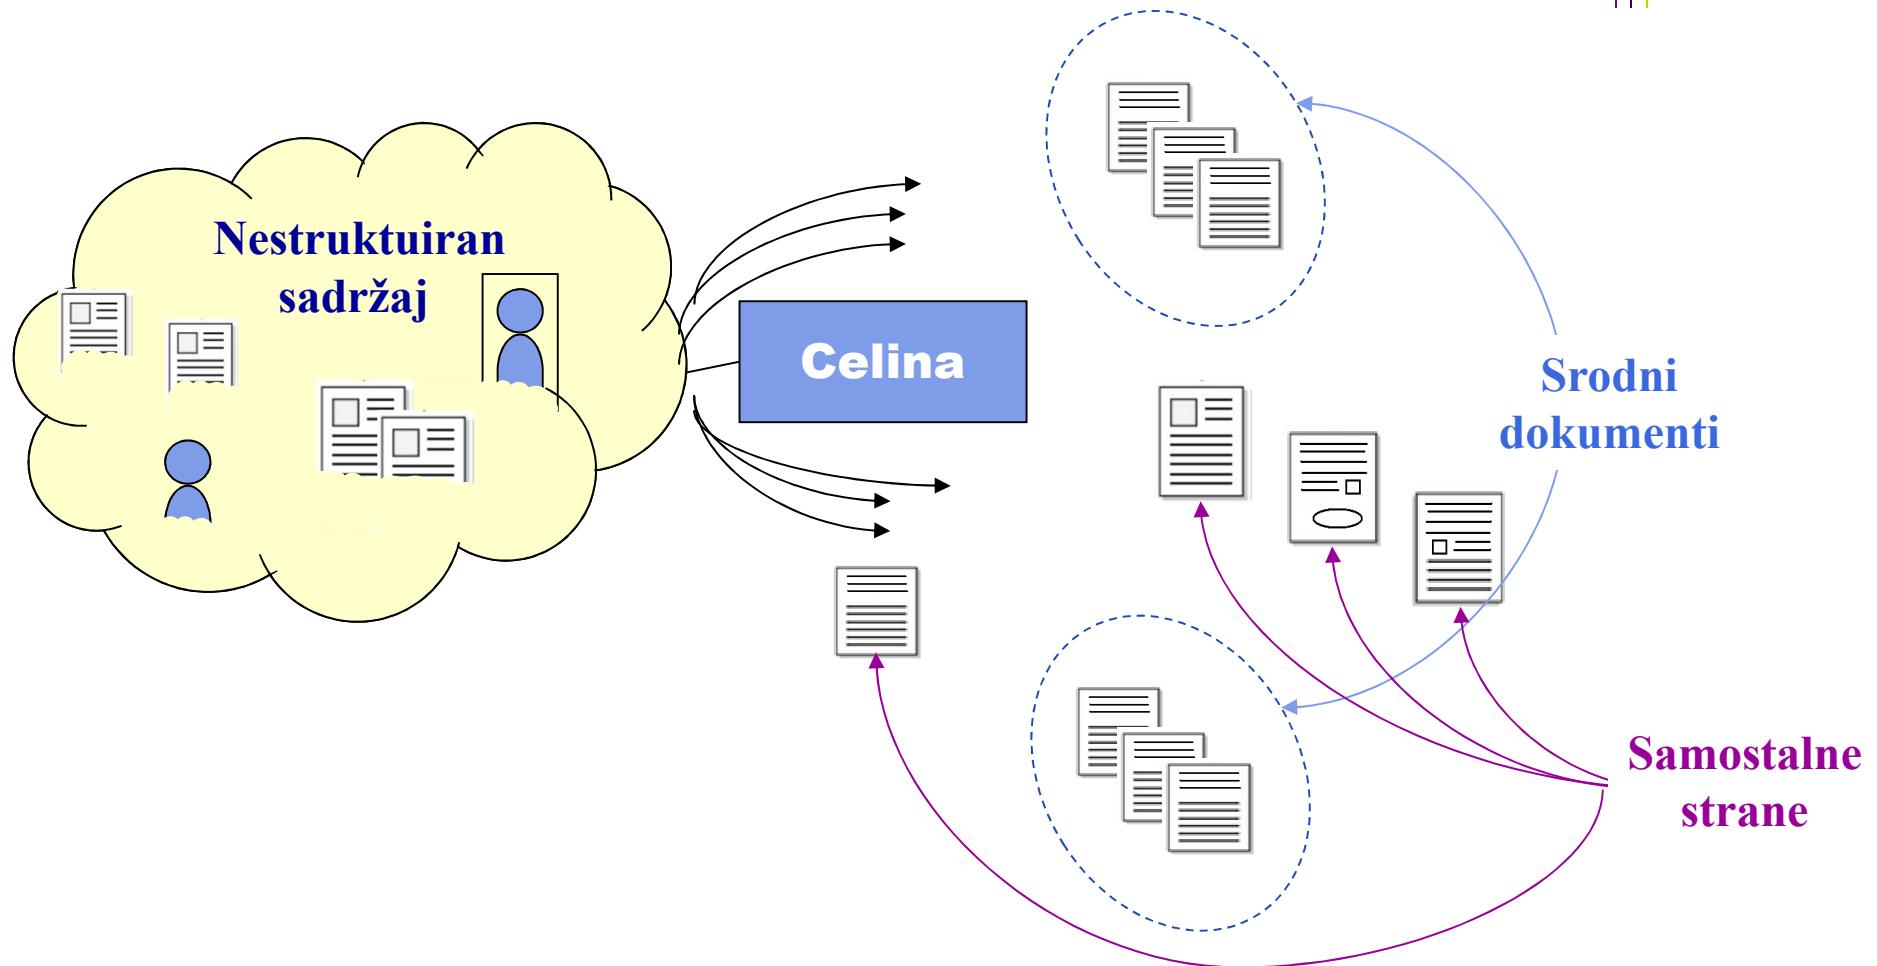

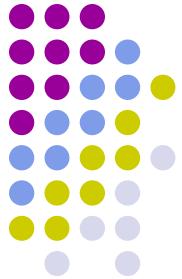

Definicija Web strane

- Osnovni element Web lokacije – strana
- Osobine strane razlikuju se od jedne do druge lokacije, pa i na istoj lokaciji
- U najjednostavnijem smislu – strana je ono što se pojavljuje u prozoru čitača
- Svrha organizovanja Web lokacija – raspoređivanje određenog celovitog sadržaja na više međusobno povezanih strana koje će korisnik lako usvojiti

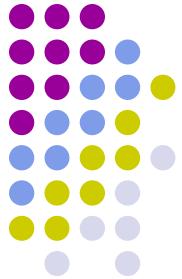

Raspoređivanje celovitog sadržaja

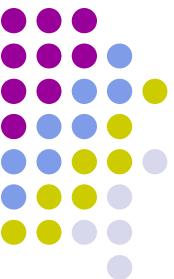

Veličina strane

- Na Webu ne postoji standard za veličinu strane
- Kao i u štampi – osnovno pitanje je da li format strane odgovara sadržaju
- Fiksna veličina strane – nesumnjive prednosti:
 - ❖ Prilikom deljenja informacija
 - ❖ Fizičke granice za ono što se postavlja na stranu
 - ❖ Poboljšava čitljivost – korisnik unapred zna koliko sadržaja očekuje kada pogleda stranu
 - ❖ Strana se može odštampati ili poslati e-poštom na predvidiv način

Veličina strana

- Teškoće – potiču od korisnikovog ekранa
- Različiti elementi operativnog sistema (sistemska paleta na Windowsovoј paleti poslova) zauzima deo prostora
- Korisnik ne mora prozor čitača da proširi na ceo ekran

Uobičajene ekranske rezolucije

Screen Resolution Statistics

As of January 2017, about 95% of our visitors have a screen resolution of 1024x768 pixels or higher:

Date	<u>Other high</u>	1920x1080	1366x768	1280x1024	1280x800	1024x768	Lower
January 2017	31.6%	17%	35%	5%	4%	3%	4.4%
January 2016	30.7%	18%	35%	6%	4%	3%	3.3%
January 2015	32.7%	16%	33%	7%	5%	4%	2.3%
January 2014	34%	13%	31%	8%	7%	6%	1.0%
January 2013	36%	11%	25%	10%	8%	9%	1.0%
January 2012	35%	8%	19%	12%	11%	13%	2%
January 2011	50%	6%		15%	14%	14%	1%
January 2010	39%	2%		18%	17%	20%	4%
January 2009	57%					36%	7%
January 2008	38%					48%	14%
January 2007	26%					54%	20%
January 2006	17%					57%	26%
January 2005	12%					53%	35%
January 2004	10%					47%	43%

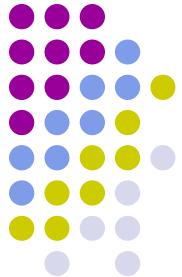

Raspoloživi prostor za sadržaj

This screenshot shows the B92 website at its full resolution of 1024x768 pixels. The layout is wide and includes multiple columns for different media types. On the left, there's a sidebar with news items and advertisements for Audi and Renault. The main content area features a large image of a parade, news headlines, and links to TV and radio programs. A sidebar on the right contains a search bar and links to various B92 services.

Puna veličina prozora čitača u rezoluciji 1024×768 tačaka

This screenshot shows the B92 website at its full resolution of 1024x768 pixels. The layout is wide and includes multiple columns for different media types. On the left, there's a sidebar with news items and advertisements for Audi and Renault. The main content area features a large image of a parade, news headlines, and links to TV and radio programs. A sidebar on the right contains a search bar and links to various B92 services.

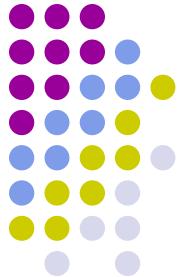

Prozor čitača pri rezoluciji 1024×768 tačaka pruža manje prostora kada ga korisnik podesi

Potencijalno raspoloživo područje

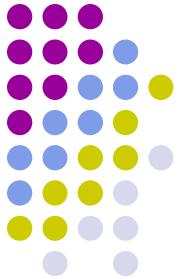

- ❑ Potencijalno raspoloživo područje ekrana pri maksimiziranom prozoru čitača i uz standardne vrednosti parametara (u Windowsu)

Browsers	640 × 480	800 × 600	1024 × 768	1200 x 1024	1600 x 1200
Chrome	620 × 310	780 × 430	1000 × 600	1180 × 850	1580 × 1030

Rešavanje problema veličine strane

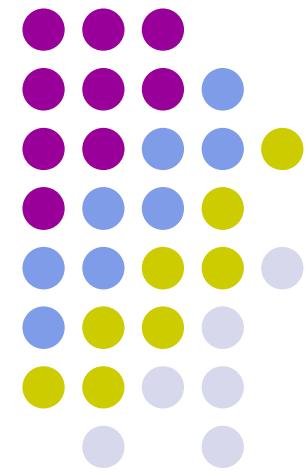

- Ako je moguće stranu je potrebno horizontalno uklopiti u raspoloživi prostor
- Značajne elemente (kao što je sistem za navigaciju) postaviti na prvi ekran
- Ukoliko je moguće, ne treba korisniku postavljati ograničenja u pogledu rezolucije pri kojoj može da radi sa lokacijom
- Kada se dizajnira na osnovu prepostavljane veličine ekrana, potrebno je uvesti faktor sigurnosti od barem 10% za veličinu raspoloživog prostora

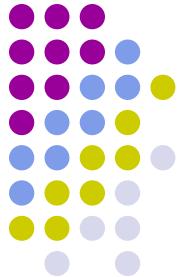

Margine strana

- Osim veličine formata strane – dizajneri treba da vode računa i o marginama za sadržaj
- Čitači koriste margine – njihova veličina u svakom čitaču drugačija
- Ukoliko je strana konstruisana tako da ne uvažava ili ne upravlja marginama, raspored na njoj u nekim čitačima može da bude poremećen
- Danas se pomoću HTML-a i kaskadnih stilova marginama može upravljati, one se, takođe, mogu ukinuti

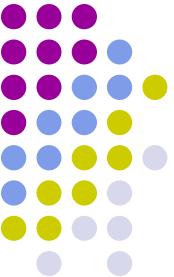

Vrste Web strana

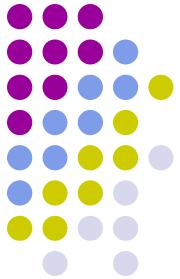

Vrste Web strana

- Web strane mogu se klasifikovati na više načina: na osnovu namene, kako se koriste, štampaju ili gledaju, koliko se često ažuriraju, itd.
- Najjednostavnija klasifikacija – na osnovu namene strane:
 - ❖ Da li je u pitanju prvenstveno strana sa sadržajem
 - ❖ Strana za navigaciju
 - ❖ Strana za obavljanje nekog posla ili
 - ❖ Njihova kombinacija
- Zbog pažnje koja se posvećuje ulaženju i izlaženju sa lokacije – potrebno je voditi računa o tome da li je strana ulazna ili izlazna
- Uspesna poseta lokaciji – jasno započeta (ulazna strana), da korisniku pruži sadržaj i pomoći pri kretanju (strane sa sadržajem i navigacijom) i da se završi (izlazna strana)

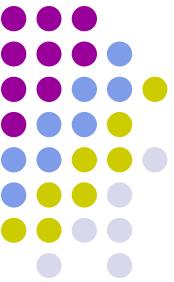

Ulazne strane

- Svaka strana, teorijski, može da posluži kao ulaz ukoliko korisnik zna njen URL
- Matična strana je glavni ulaz na lokaciju – ali izvesne važne strane pojedinih odeljaka tzv. podmatične strane mogu biti ulazi u lokaciju
- Iako većina lokacija usmerava saobraćaj na glavni ulaz (matičnu stranu), na nekim lokacijama postoje specijalne ulazne strane – uvodne strane

Uvodne strane

- Namena uvodne strane (eng. *Splash page*) ili “udarne” strane lokacije jeste da ostavi snažan utisak na posetioca
- Koristi se da se naznači atmosfera lokacije obimnom primenom grafike, animacije, čak i zvuka
- Logotipe na uvodnim stranama, koji su često preterano animirani neki korisnici smatraju samo balastom i gube strpljenje, te od nje odustaju
- **PREDLOG:** Obezbediti vezu kojom se uvodna strana može preskočiti – najčešće mala tekstualna veza pri dnu strane

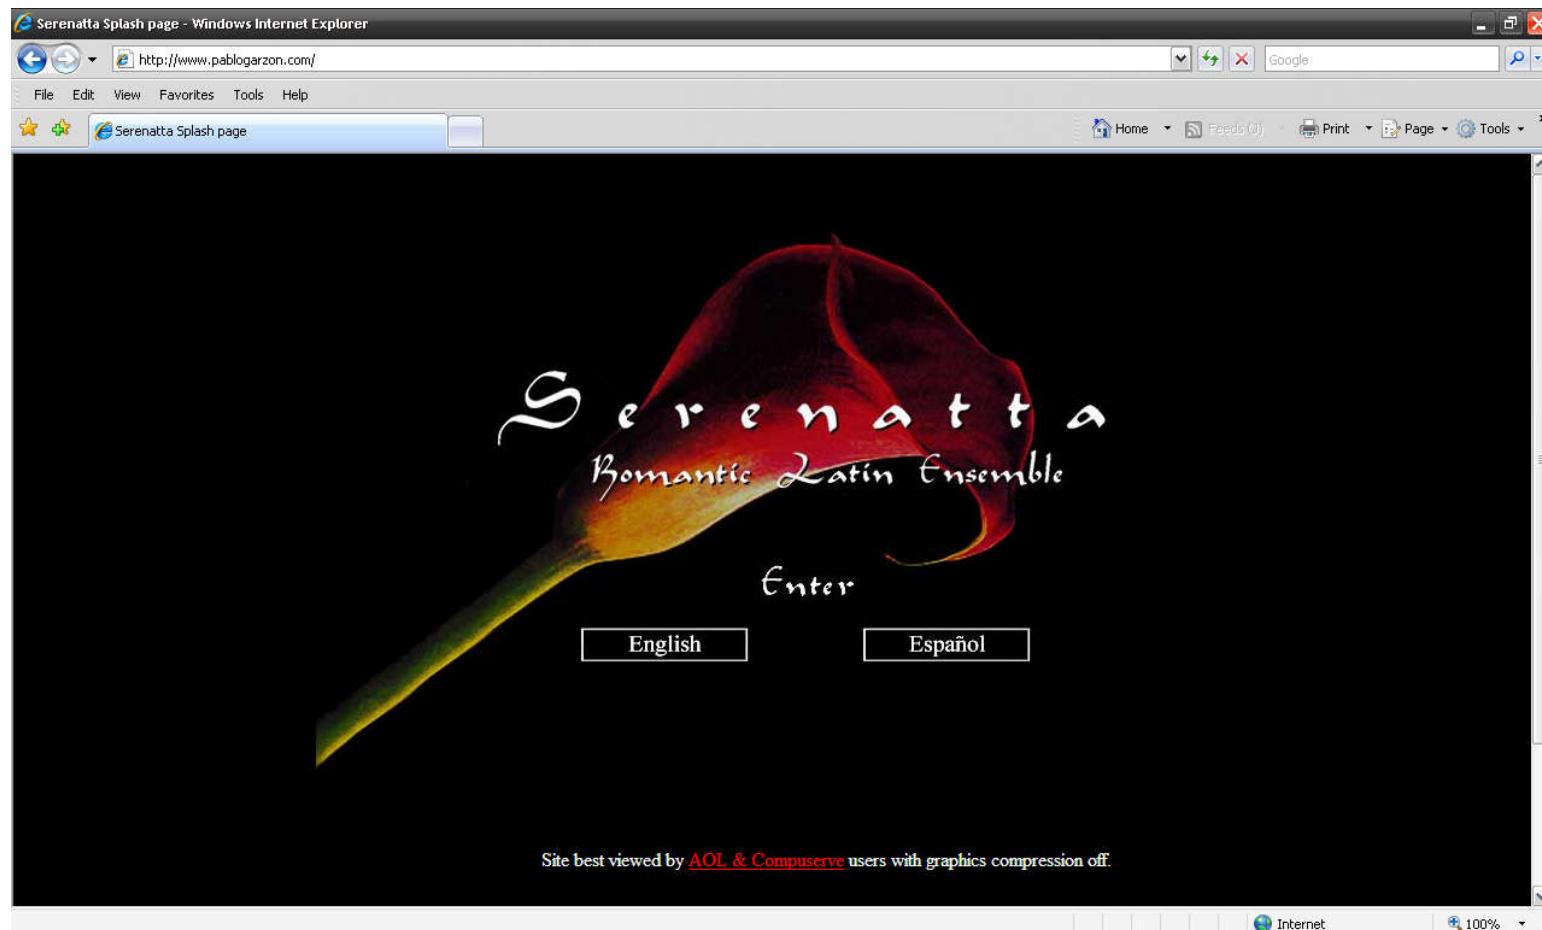

Uvodne strane

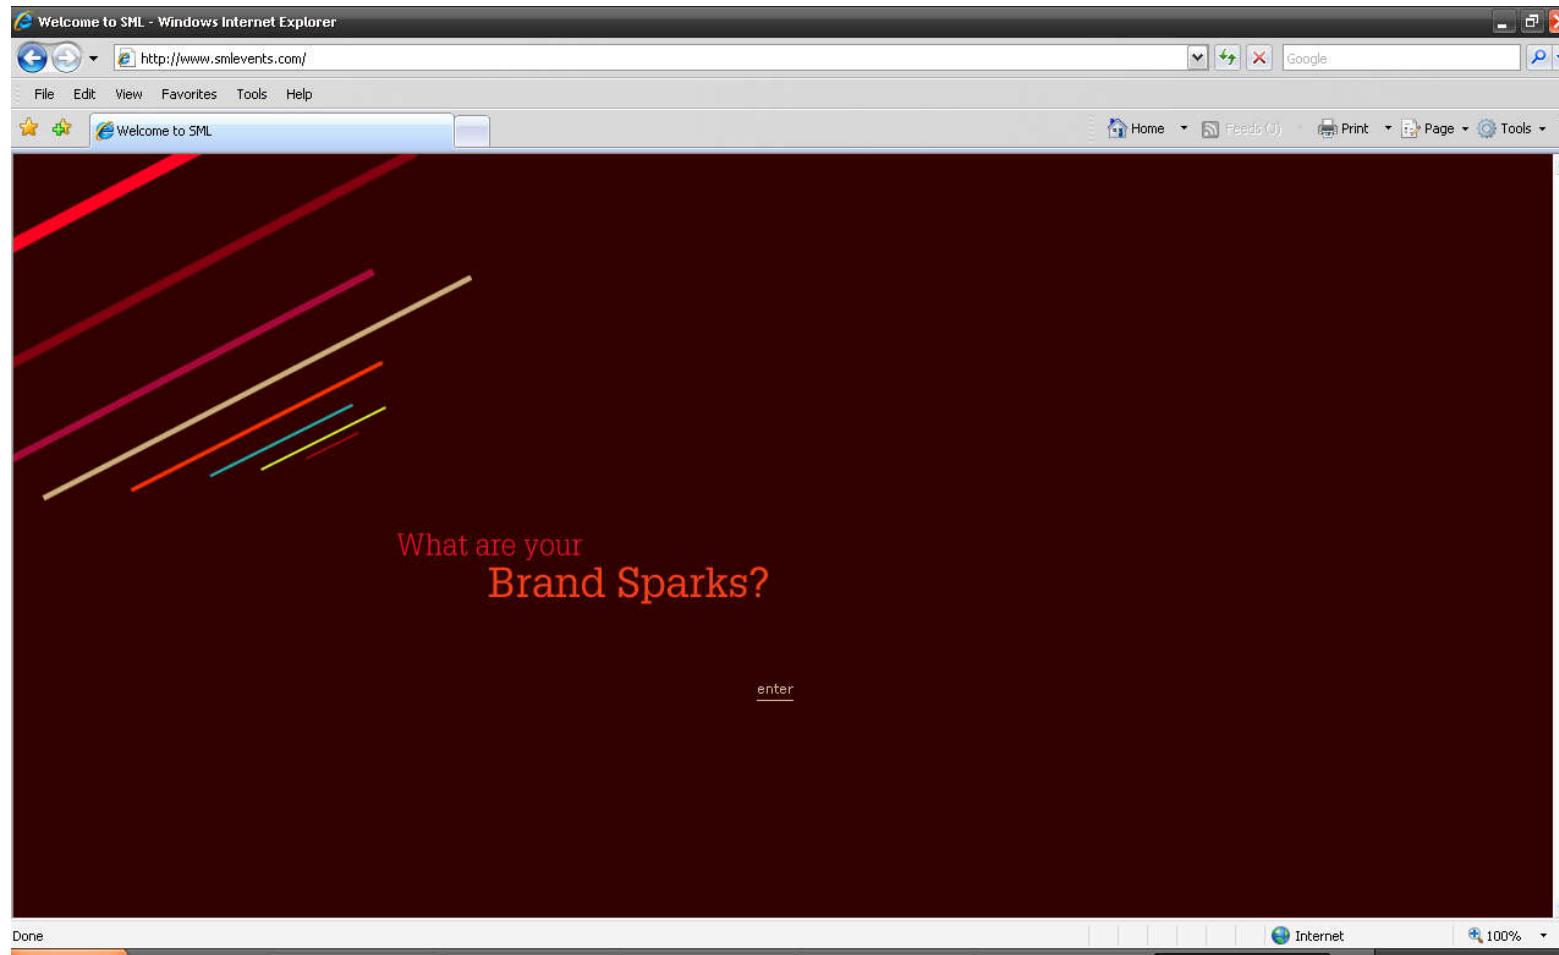

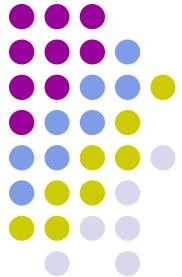

Uvodne strane

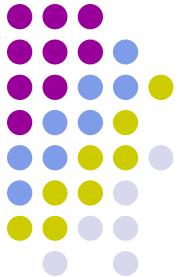

Uvodne strane

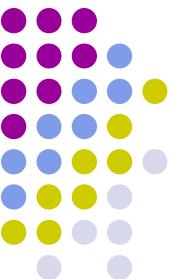

Uvodne strane

- Uvodne strane mogu doprineti nižem mestu na listama koje generišu pretraživači, jer ne sadrže (dovoljno) ključnih reči za pretragu – obično sačinjene od animacija – ne ukazuju na sadržaj za kojim traga korisnik
- Korisniku se može poslati kolačić i obezbediti da se uvodna strana prikazuje samo posetiocu koji prvi put dolazi na lokaciju
- Uvodna strana može se iskoristiti za instaliranje ili prethodno učitavanje sadržaja lokacije

Matične strane

- ❑ Matična strana treba da izgleda znatno drugačije od ostalih strana na Web lokaciji
- ❑ Ona obično ima ulogu glavnog ulaza na lokaciju – treba da bude njen osnovni orijentir
- ❑ Zahvaljujući logotipu matična strana najjače ističe identitet vlasnika
- ❑ Matične strane moraju se lako prepoznati po strukturi i po dizajnu – uspostavlja atmosferu lokacije - treba da sadrži osnovne elemente dizajna lokacije:
 - ❖ boja,
 - ❖ grafički stil,
 - ❖ stil fontova i ostalo što se koristi na drugim stranama

Matične strane

Projektovanje, rekonstrukcija, dizajn enterijera!

Matične strane

Enterijer

Dizajn enterijera. Nekada simbol prestiža, luksuz dostupan samo kraljevskim porodicama i bogatoj aristokratiji, od nedavno je svima pristupačan u savremenom načinu života. Usklađenost boja, materijala, funkcionalnosti i estetike su glavne osobine kvalitetnih enterijera.

[Read More](#)

Dizajn

Priuštite sebi osećaj potpunog zadovoljstva u prostoru kreiranom po vašem ili našem dizajnu. Pogledajte vizuelni 3d prikaz svog budućeg stana ili poslovnog prostora. Uz našu pomoć možete ostvariti kompletan dizajn enterijera od merenja prostora, izrade idejnih rešenja do same realizacije.

[Read More](#)

Uređenje

Uređenje enterijera. Veoma je važno da se ideje za uređenje stana sprovedu u delo na profesionalan način. Stručno lice, sa bogatim iskustvom, čiji je posao uređivanje enterijera na najbolji mogući način će Vašu ideju da realizuje. Ekonomično, funkcionalno i estetski prilagodena rešenja.

[Read More](#)

Naše poslovanje

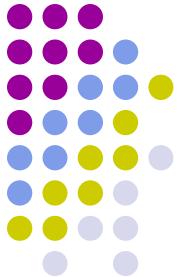

Potrebno Vam je uređenje celog enterijera? Ili samo dela postojećeg stanja? Želite rekonstrukciju starog prostora? Želite samo pomoć dizajnera ili kompletну adaptaciju? Na vama je da odlučite! Nudimo usluge projektovanja, rekonstrukcije, dizajna enterijera kao i propratne građevinske usluge. Pogledajte unapred virtualni 3d prikaz svog budućeg stana ili poslovnog prostora. Sve radove što se tiče adaptacija, rekonstrukcija, krećenje stana, renoviranje kupatila i svih ostalih radova obavljamo u saradnji sa firmom Glet d.o.o.

Matične strane

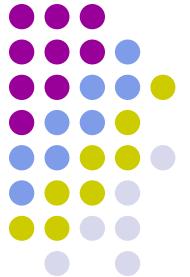

- PRAVILO: Matična strana treba da oslikava opšti izgled lokacije i da predstavi način kretanja po njoj
- PRAVILO: Matična strana mora da se učitava brzo, ali i da bude dovoljno privlačna kako bi pobudila zainteresovanost
- Matična strana treba jasno da naznači šta se nalazi na lokaciji
- Matična strana – informativni karakter – direktno obaveštenje za korisnike o izmenama na lokaciji
- Ako je matična strana uvek ista – korisnici će pomisliti da je i sadržaj lokacije uvek isti

Matične strane

- ❑ Postoji nekoliko načina da se korisnici obaveste o promenama:
 - ❖ Postavljanje datuma na stranu
 - ❖ Pomeranje glavne slike na strani povremeno ili u unapred određenim intervalima (svakog dana, nedelje ili meseca)
 - ❖ Postavljanje na stranu važnih aktuelnih obaveštenja u skraćenom obliku (saopštenja za javnost i sl.)
 - ❖ Jasna poruka o tome kada je strana poslednji put ažurirana
 - ❖ Veza ka delu lokacije nazvanom: “Šta je novo”

Ostale strane: navigacija u odnosu na sadržaj

- ❑ Većina strana na lokaciji neće se međusobno razlikovati po izgledu
- ❑ Većina svoj stil i sistem navigacije nasleđuje od matične strane - barem u osnovi treba da slede stil i navigaciju
- ❑ Dok je svrha matične strane da korisniku predviđa da se nalazi na određenoj lokaciji, kada korisnik zađe dublje u lokaciju njegovu pažnju treba vezati za sadržaj
- ❑ Ako se korisnik susretne sa novim logotipom, novim sistemom navigacije – to odvlači njegovu pažnju od sadržaja

Ostale strane: navigacija u odnosu na sadržaj

Nestalne članice SB i Kosovo

15:43 | Izvor: B92, Follet, Beli

Beograd, London--Srbija u novoj diplomatskoj ofanzivi oko Kosova, ipak u devet od 15 zemalja članica Saveta bezbednosti nema svog ambasadora. Ministar spoljnih poslova Srbije putuje sutra u posetu Južnoafričkoj Republici, nestalnoj članici Saveta bezbednosti UN. I tovereno, analitičari upozoravaju da Srbija prima ambasadore, odnosno srušiće instrumente za ostvarivanje diplomatskih aktivnosti, u devet od 15 članica ...

Strane sa sadržajem

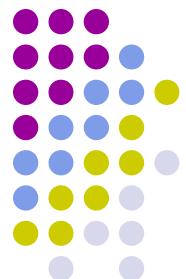

- Strane lokacije koje pretežno prikazuju sadržaj – u izvesnom smislu korisnikovo odredište
- U lokaciji strukture stabla – često predstavljaju listove – najniže elemente strukture
- Kao i druge strane na lokaciji – i one imaju izvesne elemenete navigacije
- Uobičajene strane sa sadržajem obuhvataju:
 - ❖ Saopštenja za javnost
 - ❖ Specifikacije proizvoda
 - ❖ Biografije
 - ❖ Izjave potrošača
 - ❖ Dokumentaciju za tehničku podršku
 - ❖ Finansijske izveštaje

Strane sa često postavljenim pitanjima

- Često postavljana pitanja (**Frequently Asked Questions, FAQs**) – veoma uobičajena vrsta dokumenata na Internetu
- Osnovna ideja FAQ strana jeste da se u jedinstvenom dokumentu pruže odgovori na česta pitanja – korisnik ne luta po lokaciji da bi dobio odgovor
- FAQ strana se često formatira kao dugačak dokument koji počinje indeksom pitanja od kojih je svako povezano sa odgovarajućim odgovorom na strani

Strane sa često postavljenim pitanjima

Strane sa zakonskim uslovima korišćenja

- Strana koja sadrži zakonske uslove korišćenja lokacije često predstavlja stranu - "siroče" na kojoj su uglavnom zanemareni navigacija i stil koji se sreću na drugim stranama
- Ona ipak treba da sadrži minimum navigacije da bi korisnik mogao da se sa nje vrati tamo odakle je došao, kao i minimum stila koji je povezuje sa lokacijom
- Često se veza ka stranama koje objašnjavaju zakonske uslove korišćenja nalazi u dnu Web strane na javnim lokacijama

Strane specijalno namenjene štampanju

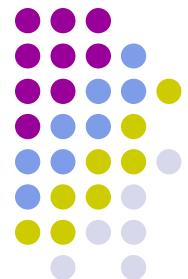

- Mnoge Web strane ne izgledaju dobro kada se odštampaju – optimizovane za gledanje u Web čitaču – sa krupnjim tekstom i užim stupcima
- Direktnim štampanjem takvih strana troši se mnogo papira
- Štampane strane treba da su sa sitnjim tekstom, a njihov format da je prilagođen standardnom formatu papira
- Štampana verzija strane može se napraviti na više načina:
 - ❖ U HTML-u
 - ❖ Nova organizacija strane realizovana pomoću kaskadnih stilova
 - ❖ Ponuditi korisniku vezu ka strani koja je već formatirana za štampanje

What is a Printer-Friendly Web Page?

From Jennifer Kyrnin, Your Guide to Web Design / HTML. FREE Newsletter. [Sign Up Now!](#)

How to Design a Printer-Friendly Version of Your Page

As Web pages get more and more complex with images, ads, and links all over the place, they become harder and harder for people to read. Combine that with the eye-strain caused by most monitors and you create an environment where people want to print out Web pages.

Many Web designers feel that if a Web page is written for the Web, that's where it should be read. But some Web pages can be difficult to read online, either because of the ads and flashing blinking images, or because they are so long that it's easier to read them in print. For how to articles, it's easier to have the article printed out to follow along with, perhaps writing notes or checking off the steps as they are completed.

Besides, it's not yet possible to take a Web browser into the bathtub with you, and falling asleep in bed with a computer can be very uncomfortable.

What is a Printer-Friendly Web Page?

From [Jennifer Kumin](#),
Your Guide to [Web Design / HTML](#).
FREE Newsletter: [Sign Up Now!](#)

How to Design a Printer-Friendly Version of Your Page

As Web pages get more and more complex with images, ads, and links all over the place, they become harder and harder for people to read. Combine that with the eye-strain caused by most monitors and you create an environment where people want to print out Web pages.

Many Web designers feel that if a Web page is written for the Web, that's where it should be read. But some Web pages can be difficult to read online, either because of the ads and flashing/blinking images, or because they are so long that it's easier to read them in print. For how-to articles, it's easier to have the article printed out to follow along with, perhaps writing notes or checking off the steps as they are completed.

Besides, it's not yet possible to take a Web browser into the bathtub with you, and falling asleep in bed with a computer can be very uncomfortable.

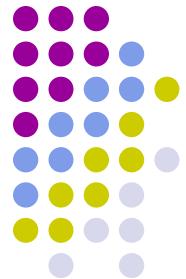

What Makes a Printer-Friendly Page Printer-Friendly?

There are some disagreements about how to write a printer-friendly page. Some people feel that only the article content and title (with perhaps a by-line) should be included on the page. Other developers just remove the side and top navigation or replace them with text links at the bottom of the article. Some sites remove advertising, other sites remove some advertising, and still others leave all of the advertising intact.

What I Recommend for Print-Friendly Pages

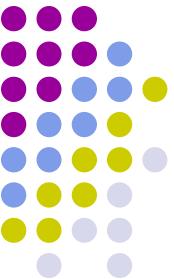

- Change colors to black on white.
If your Web page has a background color, or you use colored fonts, your printer-friendly page should be black text on a white background. Most people use black & white printers, and colored backgrounds can use up a lot of ink.
- Change the font to a serif face.
Most Web pages are written in a sans-serif font, because that is easier to read online. But when moving to print, serif fonts are easier to read.
- Watch the font size.
If you're writing a Web page with a small font size (11px or smaller), you should definitely increase the font size for printing. I recommend 12pt text or larger, depending upon your audience.
- Underline all links.
The links will not be clickable on your printer-friendly page, so making it obvious that they are links will clarify the page information. I like to also change the color of links to blue, for color printers.
- Remove non-essential images.

Strane specijalno namenjene štampaju

- **PREDLOG:** Obavestiti korisnike da će štampane strane izgledati drugačije od onih na ekranu ili im verziju za štampanje prikazati direktno u čitaču
- **PREDLOG:** PDF datoteke Adobeovog Acrobat-a koristiti za veoma složene podatke koji moraju biti identični kao na strani, takve su npr. tabele, tehnički crteži i složeni finansijski ili matematički podaci
- Datoteke Adobeovog Acrobat-a jasno označiti tekstrom i ikonicom i obavestiti korisnike kako da ih koriste

Internet

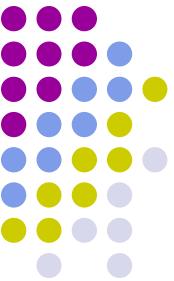

Izlazne strane

- Ukoliko je reč o stranama sa sadržajem izlaz nije definisan – svaka strana može za to da posluži
- Lokacije koje su namenjene obavljanju definisanog posla, npr. preuzimanju softvera, kupovini proizvoda, berzanskim transakcijama i sl. – moraju imati jasnu izlaznu stranu
- Na izlaznoj strani treba obezbediti i povratnu vezu ka lokaciji
- Na lokacijama za elektronsku trgovinu utvrđeno je da obična veza ka matičnoj strani, nazvana **“Nastavak kupovine”** zaista obezbeđuje dodatnu prodaju

Primeri organizacije strana

- Danas se na Webu najčešće koristi stil: **gore-levo-dole** (top-left-bottom – **TLB**)
- Osnova TLB dizajna – pravilo da je vrh strane rezervisan za označavanje strane, podatke o vlasniku i postavljanje navigacionih elemenata
- Leva ivica strane treba da nosi elemente za navigaciju
- Dno strane je obično rezervisano za tekstualne veze koje dopunjavaju druge sisteme navigacije, kao i za dodatna obaveštenja, npr. o autorskim pravima, zakonskim uslovima, itd.
- Glavna zamerka TLB dizajnu – ograničava prostor za sadržaj, na strani dominiraju navigacioni elementi, umesto usmeravanja korisnika na sadržaj – dizajnerima ne daje dovoljno slobode

TLB strane

Demo Company is the world's leading designer and manufacturer of impossible products. Our corporate vision is simple but compelling: people want what they can't have— so why not give it to them? We dare to make the impossible possible. Flying cars, underwater domes, robot servants... it's all in a day's work for Demo Company! And that's just the tip of the iceberg...

From the Demo Company think tank in Sedona to our hidden factory deep beneath the Rocky Mountains, from our invisible bankers in the Seychelles to our corporate hive in San Diego, the diverse strands of Demo Company are united by a single goal: making you completely dependent on our [products](#).

Strane tipa zaglavljje/podnožje

- Sistem za navigaciju nalazi se samo na vrhu i pri dnu strane – čitava strana raspoloživa za sadržaj
- Odgovara lokacijama koje su orijentisane na sadržaj – prostor za elemente navigacije u izvesnoj meri ograničen
- Vrh strane se u načelu koristi za identifikaciju vlasnika lokacije i postavljanje navigacionih elemenata i naslova strane
- U dnu strane postavljaju se dodatna obaveštenja i ponavlja se navigacija u obliku tekstualnih veza

Rastegljive strane

- Rastezanje strane je prilično opasno – njeni elementi mogu da se izobliče
- Nekim elementima treba fiksirati veličinu, dok drugima treba dozvoliti rastezanje
- Premda se takav dizajn prilagođava svakom ekranu on je i ograničavajući
 - ❖ Mogu se koristiti samo jednostavne boje ili šare – slika će se pri rastezanju izobličiti
 - ❖ Malo sadržaja će se upotreboom rastegljivih strana možda izobličiti

Postizanje uobičajenog izgleda lokacije

- Doslednost je uobičajena čak i u svetu štampe
- Doslednost može biti veoma dobra:
 - ❖ Korisnici znaju šta ih očekuje
 - ❖ Oni rade brže i efikasnije kada shvataju lokaciju
 - ❖ Pomaže i dizajneru – standardizovani dizajn se ugrađuje šablonski – snižava troškove izgradnje velikih lokacija
- Potreba za sličnošću – ipak ograničava kreativnost – treba se izraziti unutar zadatih ograničenja – lokacije sa istom osnovnom organizacijom dizajna po izgledu mogu da postanu veoma različite
- Sledeći primer prikazuje najpopularnije lokacije za elektronsku trgovinu – u suštini istog dizajna

The screenshot shows the Amazon.com homepage. At the top, there's a navigation bar with links for 'Departments', 'Browsing History', 'Hello, Dejan', 'Account & Lists', 'Orders', 'Try Prime', and a 'Cart' icon showing '0'. A search bar is positioned above the main content area. The main banner features four smartphones in black, red, blue, and purple, with the word 'COLOURFUL' written across them. A red box on the left contains the text 'fire \$49.99'. Below the banner, there are links for 'Your Orders', 'Amazon Prime Try Prime', 'Amazon Business Try Amazon Business', and 'Customer Since 2014'. A promotional banner for 'PILOT season presented by GEICO' is visible at the bottom right.

The screenshot shows the Walmart.com homepage. The top navigation bar includes links for 'Gift Cards', 'Registry & Lists', 'Weekly Ads', 'Store Finder', 'Track Orders', 'Credit Card', 'Help', 'Grocery Pickup', 'Hello. Sign In', 'My Account', and a shopping cart icon. Below the navigation, there are links for 'All Departments', 'Stretch your tax refund', 'My local store', 'Pick it up TODAY', and 'Tips & Ideas'. A large promotional banner in the center features a Samsung speaker, a basketball hoop, and a television screen showing a basketball game. The text on the banner includes 'GameTime!', 'Huge savings on electronics', and '60" HDTVs from \$398'. A callout also mentions 'Introducing FREE 2-Day Shipping'.
