Blog

- Blog (skraćeno od **veb log**) predstavlja lični veb sajt. Glavni sadržaj bloga su:
 - razni tekstovi, slike, multimedijalni zapisi i dr.
 - Na blogu korisnik može da ostavlja razne tekstove, članke...
 - Čitaoci bloga mogu da ostavljaju komentare, da preuzimaju određene fajlove, itd.
- Vlasnik bloga ne mora poznavati html, php niti bilo koji drugi programski jezik da bi mogao da kreira sajt.

Početak

- Kada kreirate sajt potrebno je da kupite domen (veb adresa) i platite server koji će hostovati vašu veb prezentaciju.
- Jedna od mogućnosti:
- <https://www.hostgator.com/>

Instalacija Wordpress-a

- Podrazumeva instalaciju Xampp servera, onda i samog Wordpress-a.
- Instalacija Xampp:
<https://www.apachefriends.org/download.html>
- Wordpress:
<https://wordpress.org/download/>

XAMPP

- Instalacija je trivijalna i kada se završi potrebno je u panelu aktivirati Apache i MySQL servere.

XAMPP Control Panel v3.2.4 [Compiled: Jun 5th 2019]

- Otpakovati zipovan wordpress fajl i prebaciti ga u folder *Moj_sajt*.

Kontrolna tabla - Dashboard

The image shows a screenshot of the WordPress dashboard. At the top, there is a navigation bar with the WordPress logo, a home icon, the text 'Moj sajt', a comment icon with '0', and a '+ New' button. Below this is a dark sidebar menu with the following items: Dashboard (highlighted), Home, Updates, Posts, Media, Pages, Comments, Appearance, Plugins, Users, Tools, Settings, and Collapse menu. The main content area is titled 'Dashboard' and contains a 'Welcome to WordPress!' message with a 'Get Started' section featuring a 'Customize Your Site' button and a link to 'change your theme completely'. To the right are 'Next Steps' (Write your first blog post, Add an About page, Set up your homepage, View your site) and 'More Actions' (Manage widgets, Manage menus, Turn comments on or off, Learn more about getting started). Below the main content are three widget areas: 'Site Health Status' (No information yet...), 'Quick Draft' (Title and Content input fields), and 'At a Glance' (1 Post, 1 Page). A dashed box on the right side of the dashboard is labeled 'Drag boxes here'.

Stavke levog menija

- **Posts** – deo administracije u kome se vrši unos, izmene i brisanje svih članaka na sajtu. Članci predstavljaju tekstove sa vremenskom dimenzijom, tipa vesti, blog postovi i tome slično.
- **Media** – Svi multimedijalni materijali koji se upload-uju na sajt. Praktično se ova stavka retko koristi jer se unos vrši kod samih članaka.

Stavke levog menija

- **Links** – deo administracije u kome se vrši dodavanje, brisanje i izmene linkova npr. prijatelja.
- **Pages** – važan deo administracije u kome se vrši unos, izmene i brisanje svih stranica sajta koje nemaju vremensku dimenziju, kao što su kontakt strane, strana o nama i tome slično.
- **Comments** – deo administracije u kome se vrši objava, brisanje, editovanje komentara koje posetioци ostave na sajtu.

Stavke levog menija

- Stavke **apperance, plugins** predstavljaju sistemski deo WordPress administracije i biće opisane u nastavku.
- **Users** – predstavlja odeljak administracije u okviru koga se dodaju novi korisnici, blogeri, administratori i autori tekstova.

Razlika između stranica i članaka

Page - stranica

- Stranica sajta;
- Npr. stranica Kontakt, Galerija slika itd;
- Nezavisan entitet – postoji sama za sebe;
- Navigacioni meni najčešće vodi do stranica;
- Nije „time-sensitive“, prioritet stranice ne zavisi od vremena kreiranja.

Post - članak

- Deo je kolekcije;
- Blogovi imaju listu postova;
- On je „time-sensitive“, što znači da je najnoviji uvek na vrhu.
