

Vežba 1. Primenom CSS-a napraviti Iks-oks tablu:

- Napraviti tabelu 3x3
- Definisati ćelije da budu dimenzija 100x100px
- Napraviti klasu „vertikala“ i primeniti je na srednju kolonu
- Napraviti klasu „horizontala“ i primeniti je na srednji red
- Promeniti svojstvo margin: auto – njeno podešavanje u odnosu na veb browser.

Iks oks tabla

A 3x3 grid representing an Iks-oks table. The grid is composed of three rows and three columns. The central cell is highlighted with a thicker border, indicating it is the focus of the exercise. The grid is centered on the page.

Rešenje vežbe:

```
<html><head><title>Iks oks tabla</title>

  <style >
    table {
      margin: auto;}
  td {
    width: 100px;
    height: 100px; }
  .vertikala {
    border-left: 1px solid gray;
    border-right: 1px solid gray;}
  .horizontalala {
    border-top: 1px solid gray;
    border-bottom: 1px solid gray;}
  h2 {
    text-align: center;}
  </style> </head>
<body>
<h2> Iks oks tabla </h2>
<table>
  <tr>
    <td></td>
    <td class="vertikala"></td>
    <td></td>
  </tr>
  <tr>
    <td class="horizontalala"></td>
    <td class=" vertikala horizontalala"></td>
    <td class="horizontalala"></td>
```

```
</tr>
<tr>
  <td></td>
  <td class=" vertikala"></td>
  <td></td>
</tr>
</table> </body> </html>
```
