

ZA NAVIGACIJU:

Početni html fajl:

```
<!DOCTYPE html>
<html>
  <head>
    <meta charset="utf-8">
    <title>Flexbox navigacija</title>
    <style>
      html {
        font-family: sans-serif;
      }
      body {
        width: 70%;
        max-width: 960px;
        margin: 20px auto;
      }
      button {
        font-size: 18px;
        line-height: 1.5;
        width: 18%;
      }
      div {
        height: 100px;
        border: 1px solid black;
      }
    </style>
  </head>
  <body>
    <div>
      <button>Home</button>
      <button>Radovi</button>
    </div>
  </body>
</html>
```

```
<button>Galerija</button>
<button>Hobi</button>
<button>Kontakt</button>
</div>
</body>
</html>
```

Dodavanje css svojstava:

```
div {
  display: flex;
  align-items: center;
  justify-content: space-around;}
```

Isprobaj svojstva:

```
button:first-child {
  align-self: flex-end; }
```

```
button:first-child {
  align-self: flex-start;}
```

```
button:first-child {
  justify-content: center;
}...ova svojstva obrisati
```

Gornje svojstvo justify-content: space-around; probati justify-content: space-between;

Isprobati i svojstvo koje menja redosled dugmića:

```
button:first-child {
  order: 1;
}
```
